

GSA product catalog

furniture for technology workspaces

Serving the U.S. government with quality products & services for over 35 years

Eaton has been providing world-class solutions for technology-intensive environments since 1934 and we've been a GSA Contract vendor for over 30 years.

Support from concept to installation and beyond

Our project management team, which includes a dedicated design team, customer care team and technical sales experts, will see your project through from concept to installation and beyond.

Design and technical expertise

Our design and technical experts will visit you on-site. We do the measuring, inventory your equipment, and determine the requirements necessary to meet your unique needs.

Next, our creative designers develop customized drawings to bring your workspace concepts to life, so you can visualize just how things will look once they are installed in your space.

Certified installation support

Once the design is approved and the products are manufactured to your specifications, our project management team will schedule an installation plan that helps minimize disruption for your staff. Our certified installers arrive to take care of unpacking, assembling and arranging all of the equipment as well as coordinating technical integration with your on-site information systems teams.

Service and support

For continued support, we provide services and extended warranties on all of our products. Simply contact your local Eaton sales representative for assistance.

Complimentary 3-D CAD drawings and color renderings of your proposed solution.

Environmental sustainability

The following items hold the GREENGUARD Certification.*

- Compass
- LMS
- Profile
- TechCart
- LINX
- Optimedia
- TechBench
- OnGuard

*The GREENGUARD Certification Program is internationally recognized for evaluating product emissions that meet stringent indoor air quality criteria defined by GREENGUARD Environmental Institute (GEI). Products undergo rigorous, third-party testing to determine their impact on indoor air pollution with requirements for ongoing verification. Certified products are recommended for use by leading sustainable building programs including the U.S. Green Building Council’s (USGBC) Leadership in Energy and Environmental Design (LEED) Rating System.

OnGuard Command Console

OnGuard

OnGuard Command Console

OnGuard

Superior performance, less downtime

Eaton's high performance consoles keep your operations running smoothly — day after day, year after year.

The OnGuard™ command console is ideal for a multitude of technology-intensive environments including: public safety answering points (PSAPs), emergency operation centers (EOCs), network operation centers (NOCs), transportation management centers, process control, security and other monitoring and surveillance environments.

Features & benefits

- Large single-surface lift
- Accommodates four to twelve 27" monitors
- Integrated cable lay-in features to help manage cables quickly and easily
- Expanded color options
- Customizable storage options
- Personal Environment System
- Designed and manufactured in U.S. facilities by tenured craftsmen and engineers
- Durable design withstands the rigors of a 24/7/365 multi-shift environment
- Features all steel construction, heavy-duty lifts and durable finish
- Eaton's portfolio of ePDUs (*Power Distribution Units*), UPSs (*Uninterruptible Power Supply*), surge protectors and other power products ensure that your mission-critical operation runs at peak performance

OnGuard command console

OnGuard command console dimensions

	Length (in)	Height (in)	Depth (in)
Small	120.66"	22"*	60.12"
Medium	133.66"	22"*	60.12"
Large	145.66"	22"*	60.12"

*The worksurface height ranges from 22" (lowest) to 47.60" (highest)

OnGuard Command Console

OnGuard command consoles are designed to handle as few as four monitors and up to as many as twelve 27 inch monitors. The size of the units allow flexibility in monitor layouts as your business and technology changes.

A. TechTrack

Located in the center of the worksurface, the TechTrack is a perfect spot for monitor placement. It houses the air vents for the optional Personal Environment System, and it can accommodate connective accessories such as USB, charging ports or data jacks.

B. TechCurb

Allows for cables to be routed continuously around the perimeter of the workstation. Cables and power are conveniently accessed right at the desktop.

C. Comfort edge

The front of the worksurface has an ergonomic urethane edge for maximum user comfort.

D. Monitor pole track

The monitor pole track (located on the left and right sides of the worksurface), allows for monitor pole mounting based on your design. The patent-pending track facilitates optimal placement, and provides the flexibility to relocate in the future without causing damage to the worksurface.

E. Lift technology

All OnGuard command consoles feature lifts to accommodate the varying heights of operators who share workstations, as well as provide sit-to-stand flexibility for users throughout their shift; promoting a healthier work environment.

F. Steel or laminate base unit panels

OnGuard may be ordered with steel or laminate end and rear panels to complement the design of your work environment.

OnGuard Command Console

OnGuard

OnGuard command console – small

Item	Description	Qty.
Configured	Small OnGuard unit	
AWS553DRM8F	OnGuard console, 4 monitor wide base unit, steel rear panels, steel end panels, left 3 drawer storage, right rack mount storage, center personal environment storage, Freedom color collection	
KONWLC20B	20" Monitor mounting column & base plate kit	3
KONWLK0B	Pitch/pivot column head kit	
KOWNWLK2B	Articulating column arm kit	2

OnGuard command console – medium

Item	Description	Qty
Configured	Medium OnGuard unit	
AWS56CP2D4P	OnGuard console, 4 monitor wide base unit, steel rear panels, laminate end panels, left CPU storage, right 2 drawer storage, center CPU storage, Patriot color collection	
KONWLC30B	30" Monitor mounting column & base plate kit	2
KONWLK2B	Articulating arm kit	6

OnGuard command console – large

Item	Description	Qty
Configured	Large OnGuard unit	
AWL66CPCP4L	OnGuard console, 6 monitor wide base unit, laminate rear panels, laminate end panels, left CPU storage, right CPU storage, center CPU storage, Liberty color collection	
KONWLC20B	20" Monitor mounting column & base plate kit	3
KONWLK2B	Articulating column arm kit	6

Profile Advanced Console System

Profile

Created specifically for high-density Flat Panel Display (FPD) monitoring applications, the Profile™ Console System features a versatile design that makes it ideal for a multitude of technology-intensive environments, including dispatch centers, network operation centers, medical imaging reading rooms, nurses stations and security stations.

Features & benefits

- Offers advanced technology access and integrated cable management solutions
- Ultra-durable steel frame system designed to withstand the rigors of 7x24 environments
- Sophisticated, ergonomic console solutions that manage the convergence of today's technology and the human interface with which it integrates
- Perfect for applications where sit-to-stand accommodation is desired
- Single and dual electronic height-adjustable solutions, as well as manual height-adjustable keyboard platforms

Profile Advanced Console System

- A FPD integration** – aluminum extruded slatwall inserts allow mounting of FPDs and various filing accessories. The slatwall insert includes an easily removable panel to access interior cabling.
- B Electronic lifting work surface** allows for an ergonomically correct operation. Available in dual or single lift or single lift with manual height-adjustable keyboard platform. Perfect for applications where sit-to-stand accommodation is desired.
- C High density technology storage** featuring ventilation perforations which help increase convection airflow. Front and rear access offers ease of service.

Profile Advanced Console System

72" Linear station

Item	Description
Configured	72"W x 30"D Linear control/communications station with 16"H flat panel mounting wall
PC7229S1	72"W, Steel core, double sided
PBW7230D	72"W x 30"D Bullnose worksurface with rounded corners on left hand and right hand sides
PCPR1428	4"W x 28"D, CPU docker, right swing door with roll-out shelf
PUPRFLH1	30" Full depth left upright
PCSK1000	10" Removable steel skin
PCSK2200	22" Removable steel skin
PCSK2400	24" Removable steel skin
PDW7216S	72"W x 16"H Modular slatwall
PDWT72S1	72" Top trim
PVET16T1C	Vertical end trim with cable port (qty. 2)
FPDARMWL9	Adjustable FPD mount (qty. 2)

78" Dual lift corner station

Item	Description
Configured	Ergonomic, dual lift, 78"W x 54"D corner control/communications station
PC2429S1	24"W, Single-sided core
PC3029S1	30"W, Single-sided core
PC4829S1	48"W, Single-sided core (qty. 2)
PEC48482	48"W, 48"D Corner with dual electronic lift worksurfaces
PCPR1428	Single CPU docker with left swing door
PCSK1400	14" Removable skin
PCSK2000	20" Removable skin
PCW2430R	24"W x 30"D Curvilinear worksurface
PCW3030L	30"W x 30"D Curvilinear worksurface
PDW2416S	24"W x 16"D Modular slatwall
PDW3016S	30"W x 16"D Modular slatwall
PMW4816S	48"W x 16"D Modular wall (qty. 2)
PDWT48S1	48" Top trim (qty. 2)
PDWT24S1	24" Top trim
PDWT30S1	30" Top trim
PET116P1	90"D Corner wedge
PUPRFLH1	30" Full depth right upright
PVET16T1C	Tier 1 vertical end trim (qty. 2)
PWFP2416	24" Fabric insert (qty. 4)

Profile Advanced Console System

102" Dual lift linear station

Item	Description
Configured	Ergonomic, dual lift, 102"W x 30"D linear control/communications station
PBW3030D	30"W x 30"D Bullnose worksurface
PC3029S1	30"W, Single-sided core
PC7229S1	72"W, Single-sided core
PCPR1428	Single CPU docker with right swing door
PCSK1400	14" Removable skin
PDWT30S1	30" Top trim
PDWT72S1	72" Top trim
PDW3016S	30"W x 16"H Modular slatwall
PEWS72303	72"W Linear dual lift
PMW7216S	72"W x 16"H Modular slatwall
PVET16T1C	Tier 1 vertical end trim (qty. 2)
PWFP3616	24" Fabric insert (qty. 2)
PUPRSLH1	30"D Cantilever top support left

Profile

LMS Technical Lab Furniture

LMS

LMS Technical Lab Furniture

Eaton’s modular LMS™ furniture provides the highly efficient design and configuration capabilities required in today’s lab environments. Specializing in the integration of people, technology, workspace and workflow, Eaton’s approach to building effective and efficient laboratories encompasses four basic principles:

- Ergonomic workspace
- Technology integration
- Modular configuration
- Vertical space utilization

Computer/graphics stations

Configured	LMS 1 – 36" wide
7L07	72" Upright, 31"D (qty.2)
7LG1	72" X 36" Full frame
MG19	36" Mobile base, 31"D
LG32	36" Worksurface, 27"D
LG25	36" Tower shelf/11.9"
LG26	36" Tower add-on shelf
KBTRY18	Keyboard platform with sliding mouse tray
LG33	36" Horizontal cable management kit (qty. 2)

Configured	LMS 2 – 48" wide
7L07	72" Upright, 31"D (qty. 2)
7LE1	72" X 48" Full frame
ME19	48" Mobile base, 31"D
LE32	48" Worksurface, 27"D
LE25	48" Tower shelf/11.9"
LE26	48" Tower add-on shelf
KBTRY18	Keyboard platform with sliding mouse tray (qty. 2)
LE33	48" Horizontal cable management kit (qty. 2)

Configured	LMS 3 – 72" wide
7L07	72" Upright, 31"D (qty. 2)
7LF1	72" X 72" full frame, (3) 24" modules
LF19	72" Standard caster base
LF32	72" Hook-on worksurface
LF25	72" Tower shelf/11.9"
LF26	72" Tower add-on shelf
LF33	72" Horizontal cable management kit (qty. 2)
KBTRY18	Keyboard platform with sliding mouse tray (qty. 3)

Configured	LMS 4 – 84" wide
8LH1	84"W x 72"H Modular full frame
8L27	84"H Uprights (qty. 2)
LF32	72"W x 36"H Worksurface with cantilevers
MG07	48"W x 18"H Hook-on laminate shelves (qty. 4)

TechBench Workbench System

TechBench

TechBench Workbench System

A Strong, durable, modular steel TechOrganizer allows for a myriad of desktop and overhead storage accessories and options. Helps to keep work surfaces clear and contributes to proper 'lean' lab management principles.

B Worksurfaces are available in high-pressure laminate, phenolic resin and maple hardwood.

C Integrated modular power and data distribution solutions are available.

Features & benefits

- Strength and durability required in today's instrumentation chemistry applications
- Optional components for space management and storage for analytical instrumentation and supplies
- Flexible solutions for flat panel displays, computers, keyboards, power, and data
- Height configurable from desk to workbench height
- Available in 24" to 96" widths and 30" and 36" worksurface depths
- Multiple worksurface materials are available

Linear TechBench (laminate worksurface)

Item	Description
TBLW7236A	72"W x 36"D TechBench with laminate worksurface
TBLW6036A	60"W x 36"D TechBench with laminate worksurface
TBLW4836A	48"W x 36"D TechBench with laminate worksurface
TBLW3636A	36"W x 36"D TechBench with laminate worksurface

Linear TechBench (maple worksurface)

Item	Description
TBMW7236A	72"W x 36"D TechBench with solid maple worksurface
TBMW6036A	60"W x 36"D TechBench with solid maple worksurface
TBMW4836A	48"W x 36"D TechBench with solid maple worksurface
TBMW3636A	36"W x 36"D TechBench with solid maple worksurface

TechBench Workbench System

Configured linear TechBench - 48" wide

Item	Description
Configured	48"W x 36"D TechBench with 48" TechOrganizer and shelving
TBLW4836A	48"W x 36"D TechBench with laminate worksurface
TBAFS4822	Adjustable full shelf
TF48481	48"W x 48"H TechOrganizer
LE21	48" Electronic shelf (qty. 2)

Configured linear TechBench - 72" wide

Item	Description
Configured	72" Wide configured TechBench
TBLW7230A	72"W X 30"D Linear TechBench with laminate top
TBAPS7212	72" Partial shelf
TF48721	48"H Linear TechOrganizer, 72"W
BLS7218	72" Laminate shelf, 18"D
TWB1924	19"H White board, 24"W
MB40	24" Small bin rail (qty. 3)
TPB3624	36"H Peg board, 24"W
C98009	3" Akro-bins (case of 24), yellow
C830MM	(6"/12") Suspended pedestal
TBFACP1530	Fixed accessory plate

Configured linear TechBench - 72" wide with storage cabinet

Item	Description
Configured	72" Wide configured TechBench
TBLW7230A	72"W X 30"D Linear TechBench with laminate top
TF48721	48"H Linear TechOrganizer, 72"W (24")
BLS7218	72" Plus laminate shelf, 18"D
TWB1924	19"H White board, 24"W
MB40	24" Small bin rail (qty. 3)
TPB3624	36"H Peg board, 24"W
C98009	3" Akro-bins (case of 24), yellow
UM72MM	Optimedia caster base, 36"W
1M41	28" Under bench optimedia cabinet preconfigured with (4) 6" drawers

TechBench Workbench System

Configured linear TechBench - 48" wide

Item	Description
Configured	48" Wide configured TechBench
TBLW4830A	48"W X 30"D Linear TechBench with laminate top
TF48481	48"H Linear TechOrganizer, 48"W
TPB3624	36"H Peg board, 24"W
TBB3224	32"H Bin board, 24"W
BLS4818	48" Plus laminate shelf, 18"D
C845	Box/box/file mobile pedestal
C98009	3" Akro-bins (case of 24), yellow

Linear TechBench accessories

Item	Description
TBHDC0558	Heavy-duty caster kit (includes set of 4 casters)
TBFT4800A	Foot rest tube

Compass Sit-to-Stand Modular Desking System

Compass
sit-to-stand

Compass Sit-to-Stand Modular Desking System

Eaton's Compass™ modular desking system now includes a new sit-to-stand option. This height-adjustable workstation allows the freedom to sit or stand while working. The Compass sit-to-stand offers all the features of the classic Compass line, including a freestanding, steel-based design that exceeds industry requirements for strength and durability.

Its modularity permits unlimited configuration possibilities to reflect the work styles of your people in open or private office settings. It is completely scalable and reconfigurable. And, contemporary worksurface designs with multiple options for finishes and fabrics ensure a high-end aesthetic appeal.

Features & benefits

- Flexible, durable and adjustable
- Customizable and scalable
- Technology integration
- Ergonomics and comfort with Compass sit-to-stand options
- Contemporary designs with multiple finish and fabric choices
- Modular design allows unlimited reconfigurability
- Slim profile maximizes valuable office space
- Ideal for both private and open office configurations

Free standing linear

Item	Description
Configured	Linear free standing workstation
CWFSS4824	Linear free standing 48 x 24
CWFSS4830	Linear free standing 48 x 30
CWFSS6024	Linear free standing 60 x 24
CWFSS6030	Linear free standing 60 x 30
CWFSS7224	Linear free standing 72 x 24
CWFSS7230	Linear free standing 72 x 30

Integrated linear

Item	Description
Configured	Linear workstation
CWSS4824	Linear integrated – 48 x 24
CWSS4830	Linear integrated – 48 x 30
CWSS6024	Linear integrated – 60 x 24
CWSS6030	Linear integrated – 60 x 30
CWSS7224	Linear integrated – 72 x 24
CWSS7230	Linear integrated – 72 x 30

Compass Sit-to-Stand Modular Desking System

Free standing corner

Item	Description
Configured	Corner workstation
CWFSS48481	Corner free standing – 48 x 48 – 24" deep
CWFSS48482	Corner free standing – 48 x 48 – 30" deep
CWFSS4848L	Corner free standing – 48 x 48 – 30L/24R
CWFSS4848R	Corner free standing – 48 x 48 – 24L/30R
CWFSS48601	Corner free standing – 48 x 60 – 24/24
CWFSS48602	Corner free standing – 48 x 60 – 30/30

W995	96" Bullet conference	29"H x 96"W x 36"D

Optimedia Storage System

Optimedia

Optimedia Storage System

Optimedia

Optimedia specifications

The Optimedia™ product line includes five core cabinet types with many interchangeable storage components that are easy to remove and reconfigure.

- Sidewinder™ tambour cabinets feature side opening tambour doors
- Classic tambour cabinets have front-to-back receding tambour doors
- Partial tambour cabinets offer a combination closure, with a classic tambour door at the top, and modular steel drawers at the bottom
- Extra-deep cabinets with high-capacity storage (24" deep footprint)

Cabinet construction and specifications

- Heavy gauge steel, fully welded and reinforced
- Top, sides, back panels and uprights are manufactured of 20-gauge cold-rolled steel (CRS)
- Bottom is 18-gauge CRS
- All side seams are hidden for a smooth, finished appearance
- Shell includes four (4) welded internal uprights at corners of cabinet body, slotted at 1/4" intervals for four post support of storage components
- Shell equipped with advanced safety interlocks which help prevent two roll-outs from being pulled out simultaneously* †
- Includes removable core lock for security.
- Options for individually keyed cabinets available.

*Cabinets with extra-deep shells do not include this feature

† Applies to configurations using multiple roll-out components

A - Sidewinder tambour

B - Classic tambour

C - Partial tambour

D - Door/drawer

E - Extra-deep

Optimedia Storage System Modular Drawer Cabinets

A Removable core lock is keyed and controls ganglock to secure all doors and drawers.

B Modular drawer. Typically used for storage or for drop filing.

Features & benefits

- Feature smooth-faced steel modular drawers
- Drawers include full pull handles
- Base of cabinet is recessed in front to match handle pulls on drawers.

TechCart Mobile Furnishings

TechCart

TechCart Mobile Furnishings

TechCart

- A** Plastic cable raceway cover easily snaps off to provide access to a full vertical raceway.
- B** TechCart components are adjustable on one inch centers. Mounting hardware attaches to plastic grommets for electrical isolation. Adjusting TechCart components is easy and requires no special tools.
- C** Shelves and worksurfaces feature fully radiused comfort edges.
- D** Large, four inch twin wheel casters make it a breeze to move TechCart around. Front casters are locking, suitable for office or production floors.
- E** Cable access ports (3.5" x 1.75") are located from top to bottom on TechCart uprights for a multitude of entry points to the vertical raceway. Power and data can be routed separately.

Features & benefits

- “Best-in-class” reputation
- Impressive construction and durability
- Modular reconfigurable design
- Thoughtful ergonomics
- Technology-friendly cable and power management
