## Applied Technology Academy Overview

The Academy of Applied Technology d/b/a Applied Technology Academy (CAGE Code 8EBX7) was formed in August 2019 as a successor corporation to Tech Strategies International LLC (CAGE Code 66AH6). Tech Strategies International was incorporated in 2008 to serve government and military clients with superior computer, networking, cybersecurity, leadership development and project management training via instructor-led and online live virtual classes. Applied Technology Academy was formed with the intent to achieve Florida Department of Education licensure and broaden its training offerings to include Cyber Workforce Development Programs, Cyber Training for Auditors, and Executive Cyber Training. Applied Technology Academy is an Economically Disadvantaged Woman Owned Small Business (EDWOSB) certified by the Small Business Administration and incorporated in Florida as an LLC.

Applied Technology Academy (ATA) offers a suite of computer, network, cybersecurity, leadership development and project management training for the Department of Defense. Headquartered in Deerfield Beach, Florida, ATA is an award-winning firm with extensive experience providing professional training, certifications, and testing services related to all facets of Information Technology, Cybersecurity, Leadership Development and Project Management. ATA's strength lies in the caliber of its instructors and staff – all of whom are educated, talented individuals with extensive experience in IT and project management. ATA has been recognized as a CompTIA Partner of the Year and has been named to the EC-Council's Academic Circle of Excellence for multiple years running.

The key differentiator is ATA's ability to teach, equip, and deliver skills and knowledge necessary to leverage the certifications achieved within the workplace, all with unparalleled student service and support. With Florida-based classrooms in Tampa and Fort Walton Beach, Online Live virtual classes, fully mobile classrooms, and mobile Pearson VUE test centers, the ATA team can deliver live instructor training anywhere in the world.
