

# Create Sound Plans That Stretch Every Taxpayer Dollar

Decision Lens offers a complete suite of capabilities for line-of-sight across the PPBE process.

## Anticipate Change And Quickly Pivot Priorities

Maximize the allocation of resources to avoid or navigate any impending funding "crisis".

- Automate analysis, with **easy to understand** options and trade-offs
- Reduce redundancies and bureaucracy with **defensible data-** driven recommendations
- Pivot **funding** with administrative changes

## Enable Remote Collaboration

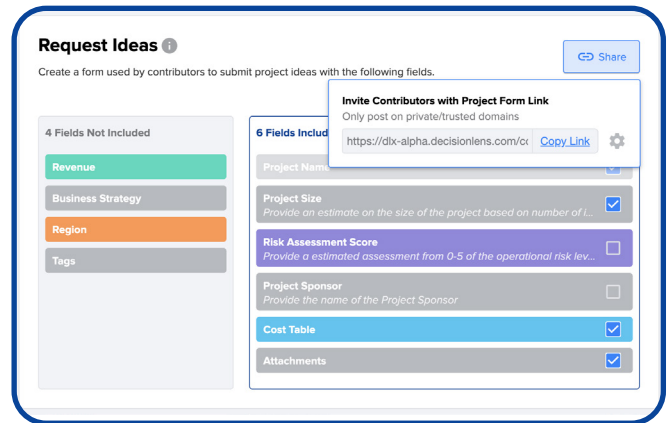

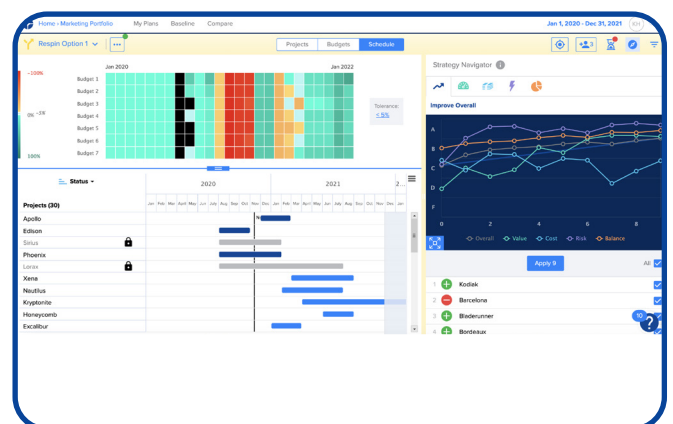

Strengthen and streamline existing systems and processes in the office or out in the field.

- Manage data **as a collective group** with easy to use edit logs
- Great for **dispersed teams** and **teleworking** structures
- FedRAMP Level 4 Certification **security measures** ensure there's nothing to worry about

## Have A Single System Of Record

Get rid of error prone spreadsheets that are scattered all over the place, and put an end to estimate "ball parking" during Acquisitions.

- Use historical data for **more accurate** predictions
- Enable current Actuals tracking for more **effective** spend, even across different colors of money
- **Quickly identify** available resources and align them to a prioritized UFR list

# Create Sound Plans That Stretch Every Taxpayer Dollar

Decision Lens offers a complete suite of capabilities for line-of-sight across the PPBE process.

“DECISION LENS ENSURES PROJECTS OF THE HIGHEST RELATIVE MERIT ARE CONSISTENTLY PROGRAMMED, BUDGETED, AND EXECUTED FIRST.”

- Vice Admiral Adam M. Robinson, USN, MC Surgeon General of the Navy

## Defense Health Agency

- Funding on facility programs across DoD medical facilities
- Trade-off decisions for short, mid, and long term impacts

## DHS Customs and Border Protection

- LOB 4 Resource Allocation Process (RAP) for all administrative functions of CBP - CFO, CIO, Facilities, HR, etc.
- Strategic alignment of programs and mission decisions

## Federal Aviation Administration

- Manage the decision-making efforts for the prioritization and allocation of resources across the agency
- Prioritize \$2B in funding across the Air Traffic Organization

## Joint Chiefs of Staff

- Standardized approval process in Joint Capabilities Division
- Streamlined method to share critical details about projects

## U.S. AIR FORCE U.S. Air Force HQ

- Prioritization of programs and allocation of funding 30 year horizon
- Mission and trade off decisions against long range Air Force strategies

## U.S. Army TRADOC

- Increase transparency across critical mission areas
- Perform real-time strategic analysis of mission critical and long-term strategic interests
