## OPPORTUNITY

There is a HUGE shortage of trained & certified Cybersecurity professionals in the US. The Troops To Tech program at New Horizons Tampa offers one of the top IT Cybersecurity and 8570

Dept. of Defense training programs in the country! Graduates from this program qualify for potential employment opportunities in various IT positions with large companies, government contractors, the Dept. of Homeland Security, the FBI, and other government agencies.

### The Troops to Tech Programs Can Help YOU get the Following Jobs:

- CyberSecurity Manager
- Information Security Analyst
- Network Security Analyst
- Database Administrators
- Network & Systems Administrators
- Healthcare Information

## OUR PARTNERS

## STUDENT TESTIMONIALS

“The instructors and support staff at New Horizons in Tampa were nothing short of OUTSTANDING! In addition to the instructors working with the students to make sure they understand the material, New Horizons also worked with me to update and polish my resume and get me an interview which ultimately led to me getting a job. Because of them, not only did I pass my exam, but I am now also able to begin working on my new career in cyber security while working at MacDill AFB. A special thanks to New Horizons for making it their mission to ensure that me, and people like me can continue to be successful.

**Joseph Jeffers, US Air Force**

“Before I enrolled, I had 3 years of experience in the Navy but no formal training for a job in IT. I was at home seeking direction and longing to get into the IT field. The moment I walked in the door, I was impressed and knew it was the place for me to acquire what I needed to update my skills. There is no comparison!”

**Lance Wimberly, US Navy**

“Prior to attending New Horizons I had less than 6 months of IT experience. I chose to enroll at New Horizons because I felt like I wasn't where I wanted to be in my career. IT has always been very interesting and one day I decided I would take a chance and give it a try and it turned out to be one of the best decisions I've made thus far! was still able to obtain employment almost immediately after receiving my certification.”

**Sabrenia Little, US Army**

## TROOPS TO TECH

US Department of Defense (DoD) Directive 8570/8140 requires every part-time or full-time military member or defense contractor position that has access to a privileged DoD system to be held by trained and CERTIFIED personnel in a commercial certification to enhance Information Assurance (IA) of the US Department of Defense's (DoD) information, information systems and networks.

- CompTIA A+
- CompTIA Network+
- CompTIA Security+
- Cloud+
- CyberOps
- CYSA+
- CASP
- PenTest+

## NEW HORIZONS DOD 8570/8140 COMPLIANCE TRAINING

New Horizons provides a robust suite of DOD 8570/8140 training solutions to help you prepare for your DOD Compliance Certification needs. - Operating Systems Certification Training
- Continuous Education/Sustainment Training

Visit our website at [www.NHTampaBay.com](http://www.NHTampaBay.com) OR [www.facebook.com/newhorizonstampabay/](http://www.facebook.com/newhorizonstampabay/)

## WHO IS ELIGIBLE FOR THE SKILLBRIDGE PROGRAM?

Under DOD Directive 1322.29

An eligible Service member must complete at least 180 continuous days on active duty and is expected to be discharged or released from active duty, within 180 days of starting the Job Training, Employment Skills Training, Apprenticeships and Internships (JTEST-AI). Approval is the responsibility of the first field-grade commander in your chain of command. As always, your ability to participate in training is second to mission requirements, and your approval authority may be terminated by your command.

## HOW TO LEVERAGE THESE OPPORTUNITIES?

Consider your post-military career path, and where you want to end up. Work backward from that point, and find training opportunities that lead to your goal.

For example, regardless of what you did in the military, if you were to enroll in one of the New Horizons 8570/8140 SkillBridge CSP programs, you could go into an interview for a position in the IT sector with a resume that speaks to your leadership and discipline and now some real world computer experience.

If you worked on computers in the military, that's even better.
